

## Instructor-Led IT Certification Courses

Sunday–U; Monday–M; Tuesday–T; Wednesday–W; Thursday–R; Friday–F; Saturday–S

### A+ Certification - Essentials

CompTIA A+ Essentials validates knowledge of basic computer hardware and operating systems, covering skills such as installation, building, upgrading, repairing, configuring, troubleshooting, optimizing, diagnosing and preventive maintenance, with additional elements of security and soft skills. The Essentials Exam validates the basic skills needed by any entry-level service technician. This is a hands-on class. The books and the exam are included in the fee.

**34.5 Hrs 16 Sessions \$495**  
G91809 13-Jan TR 6:00 PM–8:10 PM Fre

### A+ Certification – IT Technician (602 Exam)

The CompTIA A+ 220-602 exam is targeted for individuals who work or intend to work in a mobile or corporate technical environment with a high level of face-to-face client interaction. Examples of job roles include: Enterprise Technician, IT Administrator, Field Service Technician, PC Technician. This is a hands-on class. The books and the exam are included in the fee. The A+ Essentials course is a recommended pre-requisite.

**34.5 Hrs 16 Sessions \$495**  
G91812 17-Mar TR 6:00 PM–8:15 PM Fre

### Network +

This course will teach you everything you need to know to take and pass the challenging CompTIA Network+ certification exam and become an excellent network technician. You'll learn about topologies, the OSI Seven-Layer model, protocol suites, modern network operating systems, network hardware, cabling standards, remote connectivity, Internet connections, network troubleshooting, and more. CompTIA Network+ certification also counts as one of the elective exams for the Microsoft Certified Systems Administrator (MCSA) certification.

**Online Class 12 Lessons \$95**  
G91902 Starts the 3rd Wednesday of every month—[www.ed2go.com/kern](http://www.ed2go.com/kern)

### Security+

Introductory-level vendor-neutral course covering industry-wide topics, including communication security, infrastructure security, cryptography, access control, authentication, external attack and operational and organization security. The books and the exam are included in the fee.

**36 Hrs 16 Sessions \$549**  
G91814 16-Mar MW 6:00 PM–8:15 PM Fre

### Windows XP Professional (70-270)

In this course, students learn to implement, administer, and troubleshoot information systems that incorporate Microsoft Windows

XP Professional. Topics include installation, administering resources, hardware devices and drivers, monitoring performance and reliability, and configuring the desktop.

**40 Hrs 15 Sessions \$785**  
G91811 12-Jan MW 6:00 PM–8:40 PM Fre

### Managing a Win 2003 Server Environment (70-290)

In this course, students learn to manage and maintain a Microsoft Windows Server 2003 environment. Topics include managing physical and logical devices, managing computers, users, and groups, and implementing disaster recovery. The books and the exam are included in the fee.

**40 Hrs 8 Sessions \$785**  
G91810 17-Jan S 8:00 AM–1:00 PM Fre

### Implementing a Win 2003 Network Infrastructure (70-291)

In this course, students learn to implement, manage, and maintain a Microsoft Windows Server 2003 network infrastructure. Topics include IP addressing, name resolution, remote access, and network security. The books and the exam are included in the fee.

**40 Hrs 7 Sessions \$785**  
G91813 21-Mar S 8:00 AM–1:45 PM Fre
