ElderCollege Members Participate in "Dive Put-in-Bay"

Thirteen members of Terra's ElderCollege program recently traveled to Put-in-Bay and joined more than 100 other volunteers in the annual "Dive Put-in-Bay" event.

The event, sponsored by many of the downtown Put-in-Bay vendors, occurs the third Monday in September. Divers and land volunteers alike join to clean the harbor of debris left over from the summer's activities.

The ElderCollege members carried bags of trash, tallied and sorted the materials found and recycled what could be recycled, and disposed of the balance of items. After the event, the members enjoyed a nice day touring the island.
