Terra Community College
2830 Napoleon Road
Fremont, Ohio 43420

Dear Mr. Grine & Mr. Stinchcomb:

Bowling Green State University welcomes the opportunity to enter into an articulation agreement with Terra Community College. These types of agreements not only benefit the students, but they also meet the current goals of Ohio to maximize our resources and provide information that will lead to timely graduation.

We are an active participant of the CAS system which is a web based transfer articulation system sponsored by the Ohio Board of Regents. It is our intent to use this system to maintain the transfer articulation rules set forth in this agreement. In addition, your students will be able to produce planning guides using this system, which will help them track their degree progress.

Articulation agreements represent a resource commitment for the two joining institutions, as well as a commitment to communication, training and advising coordination. The Office of Registration and Records has enclosed information about the CAS system and is more than willing to assist you in training your staff and students. They will be sharing the same information with the College of Technology. In addition, they have attached commitment of resources guidelines that govern this agreement.

Signatures indicate willingness to commit university resources to this agreement as specified. Please return this document with the appropriate institutional commitments.

BGSU Dean
College of Technology
