Expand Your World With Terra Community College Scholarships

Choose Ohio First

Check out Terra's innovative scholarship program for students interested in teaching mathematics or science in a high school setting.

- Collaborative Research Projects
- Real-World Experiences
- Early Teaching Opportunities
- Capstone Project
- Innovative Education

ACTION Scholarships

Students selected to be ACTION Scholars will receive a scholarship, the value of which will increase after the first two years, based on the student's successful completion of program benchmarks. Scholarships will be awarded according to the following schedule:

TERRA	TERRA	BGSU	BGSU
Year 1	Year 2	Year 3	Year 4
\$2,000	\$2,000	\$3,500	\$4,250

Academic merit-based scholarships up to the full cost of tuition and fees may be available for some students to supplement the ACTION scholarship.

Email: nsattler@terra.edu

In addition to these scholarships, ACTION Scholars will take part in:

Real-World Experiences

In their second year, students will experience firsthand how science and mathematics are used in the real world through experiences with industries and organizations.

Early Teaching Opportunities

ACTION Scholars will participate in teaching related activities with real students during their first semester and continue to use real classroom experiences to develop an understanding of the craft of teaching throughout the program.

Innovative Education

Throughout the program, students will be introduced to innovative courses helping them learn teaching techniques that will enhance their skill and competency in the classroom.

Collaborative Research Projects

ACTION Scholars will be part of a research team, gaining valuable experience as they work with their peers and expert faculty to examine a variety of pressing scientific issues.

Capstone Project

The capstone research project provides ACTION Scholars an opportunity to learn how to conduct research about their students' learning of science and/or mathematics content. Consequently, once the scholars officially begin their teaching careers, they will have the skills and tools necessary to continuously improve their teaching.
