

I am currently enrolled in a High Deductible Health Plan (HDHP) and am eligible to contribute to a Health Saving Account (HSA). I understand that it is my responsibility to open my HSA account with the bank and to notify the payroll department when that is completed. I further understand that it is my responsibility to monitor the account to ensure that my contributions do not exceed the calendar year annual IRS limits.

I am electing an optional payroll deduction for a Health Savings Account (HSA). The amount I would like deducted from each pay is \$_____, effective January 1, 2010.
