In 2014, President Webster began the President’s Roundtable which is a special event held at President Webster’s home. The event allows students to join Dr. Webster for dinner and the opportunity to engage in a dialogue about an important or timely topic. A Terra State faculty and/or staff member present a short synopsis of the topic and the students break into small groups facilitated by Dr. Webster and others.

This year our topic will be on Issue 3: Legalization of Marijuana and our guest speakers will be Holly Penhos, Associate Professor of Nursing and Jeff Huffman, Director of Campus Safety.

In 2014, the topic was whether using secretive and untested drugs to perform death by lethal injection is cruel and unusual punishment with guest speaker Professor Bill Taylor.

If you have any questions about the President’s Roundtable, please contact Melissa Jensen at 559-2151.

“The President’s Roundtable was a unique and inspiring event. It was a great experience to have intellectual discussion and debate on a hot topic in today’s society. Professor Bill Taylor presented an excellent opening to the discussion and Dr. Webster made us all feel welcome. I believe the event left us all better informed on the issue and better acquainted with our fellow students, instructors, and the President.”

Jennifer Shaffer

“Dr. Webster was very welcoming and dinner was enjoyable. It was great to meet other students, and listening to Professor Taylor speak on the history of the death penalty was amazing. It was an opportunity I am glad I didn’t miss.”
